# INTRODUCTION

Technology and digitalization are increasing the global interaction and growth potential of individuals and businesses. The 21st century is a period that enables people and businesses to surpass the limits of the physical world. The digital world expands people's experiential universe and opens up new areas for imagination. To access this new world, fast, efficient, and reliable tools are needed.

Bzetmex Exchange was launched in 2023 to meet these needs, allowing users to buy and sell, store, and transfer many digital assets.

The Bzetmex team, which has established strong foundations and works in accordance with its principles, provides 24/7 service for the Bzetmex Crypto Trading Platform to ensure the security of its users' accounts, enable smooth, fast, and transparent trading, and ensure easy accessibility.

Bzetcoin is designed as a cryptocurrency that operates using blockchain technology. It is offered to users to verify, secure, and share data and transactions. Bzetcoin aims to facilitate transactions on a fast, secure, and scalable network. It also aims to increase inter-blockchain interoperability, helping people create new possibilities.

# VISION & MISSION

Bzetmex aims to enable the transfer of crypto assets worldwide, safely and at a low cost, allowing for buying, selling, and trading from anywhere and using different currencies. Bzetmex aims to create a network that manages the creation, recovery, and flow of price-stable crypto assets in line with this goal.

Bzetmex aims to increase the interaction between the physical and digital worlds, providing people access to a wider universe of experiences. It aims to be an ecosystem that offers effective tools for anyone who believes in a decentralized world that can create solutions, develop habits, and grow through interactions between blockchains.

# ABOUT

# About

# Bzetmex

Bzetmex is a cryptocurrency trading platform that provides its users with a powerful infrastructure, a fast and secure trading platform, strong market liquidity, and 24/7 customer support.

In addition to being a cryptocurrency trading platform, Bzetmex aims to invest in and develop new-generation technologies. Investing in areas that add value to the order and efficiency that the decentralized world brings to the traditional financial systems is one of the asset goals of Bzetmex. Bzetmex aims to bring all new technologies, products, and services to its users.

## **Strong Infrastructure**

---

Bzetmex is a platform that enables thousands of users to perform cryptocurrency transactions simultaneously through its website and applications. The platform prioritizes the reliability of its infrastructure. To achieve this, it has worked with an expert development team and cybersecurity companies to perform the necessary checks to prevent issues such as transfer slowdowns, hacking, and system crashes. As a result, Bzetmex has provided a trustworthy platform for its users.

# ABOUT

# About

# Bzetmex

## Quick & Easy

Bzetmex has provided its users with a simple, elegant, and user-friendly interface that meets all their needs.

Bzetmex has created a user-friendly interface that allows users to easily monitor buying, selling, monitoring, transferring, and confirming transactions.

## Strong Liquidity

In the fast-paced and liquid cryptocurrency market, Bzetmex enables quick trades at desired prices thanks to its deep liquidity. With a strong technical infrastructure, Bzetmex has the necessary equipment to protect its investors and ensure seamless transactions even in the face of market volatility.

# Bzetmex Ecosystem

## Bzetmex Ecosystem

---

All products and services within the Bzetmex ecosystem will be made available in compliance with global and local regulations. This compliance process may affect the presentation, location, and timing of products and services.

As each product and service undergoes clarification throughout the process, the Whitepaper will be updated, and both investors and the public will be informed.

## Bzetmex Exchange

---

Bzetmex is a Turkey-based cryptocurrency trading platform that offers its users robust infrastructure support, a fast and secure transaction platform, strong market liquidity, and 24/7 customer service support. The platform was designed and developed to provide users with the best experience.

# Bzetmex Ecosystem

## BzetmexPay

BzetmexPay aims to be a fast, unlimited, and secure payment processing platform.

BzetmexPay is a technology that makes it easy to make and receive payments using cryptocurrencies. With this technology, merchants and users can accept payments in multiple cryptocurrencies.

## BzetmexWallet

BzetmexWallet is a wallet application used to store, send, and receive cryptocurrencies. With BzetmexWallet, you can securely store and share cryptocurrencies with other users.

# Bzetmex Ecosystem

## **BzetmexNFT**

---

NFT Marketplace aims to be a platform that allows users to create their own unique coins and share them with other users. This platform enables buying and selling NFT coins used to verify ownership of digital assets, digital objects, digital artworks, and collections such as photos and video content. Bzetmex NFT Marketplace is designed as an online store supported by blockchain technology and aims to be used for the buying and selling of digital content.

## **BzetmexLaunchpad**

---

Bzetmex Launchpad is a platform powered by blockchain technology and provides collective financing of projects. In this way, it helps the development of projects and offers investors the opportunity to invest in these projects.

Bzetmex Launchpad is a crowdfunding platform for promising blockchain projects. When a project is placed on this platform, the project's coins are created, listed on the Bzetmex crypto trading platform, and the company's crypto assets can be bought, sold and traded among users for free.

# Bzetmex Ecosystem

## Bzetmex Invest

---

Bzetmex Invest was established in the Bzetcoin (BZET) program to meet the financial needs of entrepreneurs and R&D projects. Under this program, we will provide financial support to individuals and organizations operating in the following categories:

- Entrepreneurs
- Scientists with R&D projects
- Startups developing projects in the field of blockchain and cryptocurrencies
- University departments related to blockchain. Through this program, we aim to help individuals and organizations in these categories continue their work in the field of blockchain and cryptocurrencies.

# About

# Bzetcoin

## Bzetcoin

---

Bzetcoin is a blockchain-based cryptocurrency.

Bzetcoin aims to enable people to conduct transactions quickly, securely, and at low cost on a fast, secure, and scalable network, serving as a peer-to-peer currency that allows payments to be made 24/7 to anyone, anywhere in the world.

Bzetcoin is an open-source global payment network that secures its mathematical network.

Bzetcoin is more robust than other leading math-based currencies, offering fast transaction confirmation times and advanced storage efficiency. With industry support, trading volume, and liquidity, Bzetcoin is a proven trading environment. This technology is used to verify, secure, and share people's data and transactions.

# About

# Bzetcoin

## Wallet Encryption

Wallet encryption secures your wallet, allowing you to view your transactions and account balance. However, you must enter your password before spending Bzetcoins. This practice protects your wallet against malicious software that steals your wallet and enables you to verify payments before sending them.

## Open Source Software

Bzetcoin is a free and open-source software as a software. Users have the right to run, modify, copy, and distribute the software. The open-source nature of Bzetcoin allows anyone to examine, modify, and use it in a unique way.

Bzetcoin is also an accessible and usable software for everyone, enabling widespread use of the software.

# About

# Bzetcoin

## **Blockchain**

---

The Bzetcoin block chain has the ability to have higher transaction volumes due to its more frequent block production. This allows network members to support more transactions in the future without the need for software changes. This results in faster confirmation times and the ability to receive more confirmations.

## **Quick Transactions**

---

The block chain was designed as a data structure, and this structure enables transactions to be processed quickly.

Bzetcoin has faster transaction confirmations with an average Bzetcoin block taking 2 minutes. Fast confirmations are suitable for small transactions, but more confirmations may be needed for larger transactions to increase the security of the transactions.

# TOKEN TOKENOMICS

## Pre-Sale (%25)

Bzetcoin will be sold publicly at a fixed price and 25% of the total supply will be available for purchase during this process. During the purchase, users can use the option to stake and receive a guaranteed return of 8% for 3 months, 16% for 6 months, and 25% for 12 months by purchasing and staking Bzetcoin.

## AirDrop (%5)

During the ICO process, an Airdrop campaign will be launched. In this campaign, users can receive Bzetcoin for free if they meet the specified conditions. A total of 5 million Bzetcoin will be distributed.

## Partner (%15)

Partner Airdrop campaigns are different from normal Airdrop campaigns as they are conducted in partnership with Bzetcoin partners. During these campaigns, users will receive rewards. Bzetcoin can be given as a reward, but the reward may vary depending on the campaign.

# TOKEN TOKENOMICS

## Invest (%10)

The Bzetcoin project was designed to invest in the future of young generations by financing technological projects and young entrepreneurs when they need it. To achieve this goal, 10 Million Bzetcoin, which constitutes 10% of the total supply, will be presented to entrepreneurs as part of the Angel Investor program after project applications are received and evaluated.

## Team (%10)

The team share of 10 million will be distributed to the Bzetcoin team in pieces over the course of two years after being unlocked. The maximum amount of BZET that can be distributed to the team before two years have passed from the ICO date is 50% of the total team share (5 million).

# TOKEN TOKENOMICS

## Private Sale (%5)

The Private Sale, which will run from February 15th to March 15th, offers more favorable opportunities for investors who want to be part of the project. A 10% bonus will be completed for investors who participate in the private sale. The 10% bonus assigned to the user can be used after being locked as stake for 3 months.

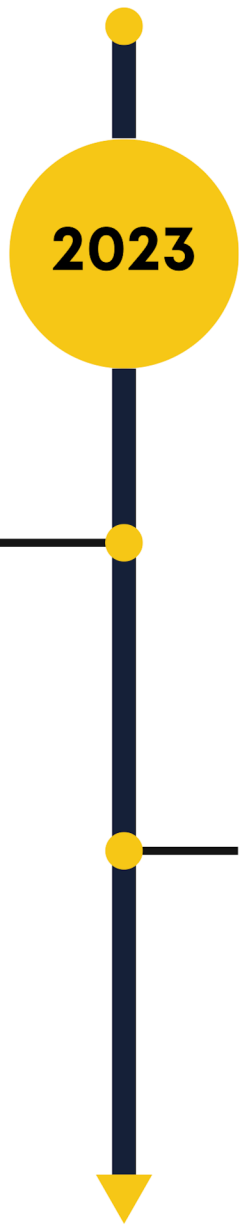

## Out of Supply (%30)

30 million out of 100 million Bzetcoin will be kept within the company for 2 years. These coins will be used for operations such as coin burning to stabilize the price of Bzetcoin.

# ROAD MAP

## Q1, 2023

### Bzetcoin Wallet System

The Bzetcoin wallet system will be fully accessible through applications available on iOS, Android, and the web.

## Q2, 2023

### Bzetcoin ICO Start

The ICO process for Bzetcoin will commence.
